

Integrated Waste Management Hierarchy

Reduce
Reuse  **Recycle**  **Compost**

**Incinerate with
Energy Recovery**

**Incinerate or
Landfill**

- *Reduce waste tire generation by maximizing tire life span.*
- *Reuse tires on off-roadway vehicles*
- *Recycle waste tires into products like playground cover, surfacing tiles, rubberized asphalt and lightweight backfill for civil engineering projects.*

- *Incinerate tire derived fuel for energy recovery*
- *Landfill engineering projects, such as using shredded tires for alternate daily cover or leachate collection layers.*
- *Landfill disposal of shredded or cut tires.*
